**Olivia A Stone**

## I Believe That...

- Students should receive a fair and equal education based on their abilities
- Students across the nation should be learning the same curriculum.
- Teachers should equally involve the parents in the student's educational process.
- Every student has the potential to bring something of their own world.
- Children should be exposed to a nurturing environment at school, it might be the only comfort they have.
- Children should be held accountable for their actions.
- Students should be able to take something from everything they learn that they can use in everyday life.
- It is my responsibility to help the student discover their full potential and to help them understand their interests.

**“Education is not the filling of a pail,  
but the lighting of a fire.”**

**-William Butler Yeats**

## My Goals as an Educator:

- To teach students to take ownership of their own learning
- To challenge and engage students to become life-long scholars
- To enhance learning through the use of technology and meaningful activities
- To inspire students to become enthusiastic, passionate, and compassionate
- To be a difference maker!

## 5 Adjectives to Describe Me:

- Organized
- Leader
- Determined
- Compassionate
- Creative
