

## Philosophy of Education Belief Statements

Olivia Stone

- I believe that students should receive a fair and equal education based on their abilities.
- I believe that students across the nations should be learning the same curriculum.
- I believe that teacher should equally involve the parents in the student's educational process.
- I believe that every student has the potential to bring something of their own to the world.
- I believe that children should be exposed to a nurturing environment at school, it might be the only comfort that they have.
- I believe that children should be held accountable for their actions.
- I believe learning should be fun.
- I believe that the student should be able to take something from everything they learn that they can use in everyday life.
- I believe that it is my responsibility to help the student discover their full potential and to help them understand their interests.
