

March 28, 2020

To Whom It May Concern,

I had the pleasure of having Olivia Stone as a student teacher in my learning support classroom. Miss Stone spent a month in my second and third grade learning support classroom. Her time was sadly cut short due to COVID-19 school closures. She serviced over 30 students daily. During her time in my classroom, I found her to be caring, enthusiastic, and a perfectionist. Miss Stone established relationships with all students and quickly became a dependable fixture in our classroom.

Miss Stone was always prepared for the week. Anything I asked her to teach or complete she always went above and beyond. Miss Stone had extra lessons, time fillers, and was always overly prepared (which is a great quality in my book!). She worked with several different ability levels in students ranging from kindergarten to third grade. Miss Stone taught phonics, reading comprehension, writing, grammar, and mathematics. Miss Stone was able to meet all student needs during instruction.

Miss Stone dealt with many trying circumstances within the learning support environment. She serviced students with learning disabilities, intellectual disabilities, emotional disturbances, and other impairments. Miss Stone was always highly encouraging to all students. She encouraged students to make good choices and motivated them when they were down. Miss Stone established excellent rapport with the students and made her a trustworthy adult in the students' eyes.

I am very impressed that Miss Stone's attitude towards staff and students was always professional and positive. She is willing to help out whenever and wherever she is needed. Miss Stone volunteered to help out with our One School One Book initiative. She also helped with Math & Science Night planning and preparation, however this event never occurred unfortunately, due to COVID-19. Miss Stone is highly motivated and would be a welcomed addition to any school district. Please feel free to contact me at 330-219-0051 or 724-588-2500 ext. 1410 and I would be happy to discuss Olivia Stone's performance with you.

Sincerely,
